2023 Guide to
Sustainable Ingredients

## **Overview**

Inside this guide to our sustainable products, you'll see just how biobased, biodegradable, and safer choice certified our ingredient portfolio is!

We are constantly adding to this list; therefore, consider this to be a chapter on part of our committed journey.

We didn't get this far by walking alone. We would like to thank our customers, suppliers and friends for the ongoing partnership that allow these achievements to happen.

We believe that a world with more efficient and safer chemicals is a better world for all. Our commitment to the industry, to society and to the environment has been translated into initiatives like developing a biobased, biodegradable and listed on CleanGredients portfolio of chelating agents, processing aids and additives, surfactants, plasticizers and solvents, and enzymes.

This document is to be used as a reference for sustainability. Please refer to our full Product Range Card and 1-4, Dioxane Brochure for further product information. Product Prop 65 statements are also available upon request.

#### **DEFINITIONS**

While definitions of biodegradable and biobased may differ across the industry, we want to share with you just how we identify our products so you can make the most informed decisions for your formulations.

### **Biobased:**

Ingredients are considered biobased if they have biologically-based carbon molecules. Percentages of biobased carbon are approximate. If you would like further information on the biobased content, please reach out to us directly.

## **Biodegradable:**

Ingredients are considered biodegradable if they can naturally decay at a certain ratio. There are five categories of biodegradability. In this brochure those products that are Readily Biodegradable are listed.

- RB: Readily Biodegradable by OECD criteria (≥60% in 10-day window)
- UB: Readily Biodegradable (≥60% in 28 days)
- MB: Moderately Biodegradable (>20–60% in 28 days)
- PB: Poorly Biodegradable (≤20% in 28 days)
- PE: Partially Eliminated by water

### **Safer Choice:**

The United States Environmental Protection Agency (EPA) has created a rigorous review and QA of third-party assessment of chemical ingredients. If an ingredient meets the requirements that are based on performance, packaging, pH, and VOCs, then it is listed on EPA's Safer Chemical Ingredients List. All chemicals that pass this investigation are listed on cleangredients.org, a database whose formulations have been pre-approved by the EPA based on Safer Choice Standards.

# **Biobased**

Ingredients are considered biobased if they have biologically-based carbon molecules. Percentages of biobased carbon are approximate. If you would like further information on the biobased content, please reach out to us directly.

Anionic Surfactants		
Trade Name	Chemical Nature	% Biobased Carbon
Sulfopon® 1216 G	Sodium Coco-sulfate	100
Texapon® 842 UP	Sodium n-octyl sulfate	100
Texapon® K 12 G	Sodium C12 fatty alcohol sulfate	100
Texapon® K 12 P	Sodium C12 fatty alcohol sulfate	100
Texapon® K 14 S SPEZ 70%	Sodium myreth sulfate	100
Texapon® K 30 UP	Sodium Coco-sulfate	100
Texapon® NSO 328 UP	Sodium lauryl ether sulfate (3 EO)	75
Texapon® V 95 G	Sodium lauryl sulfate	100
Texapon® Z 95 P	Sodium C12-18 fatty alcohol sulfate	100
	Chelating Agents	
Trade Name	Chemical Nature	% Biobased Carbon
Trilon® M Granules SG T	Trisodium salt of MGDA	ask for details
Trilon® M Liquid T	Trisodium salt of MGDA	ask for details

## Biodegradable

Ingredients are considered biodegradable if they can naturally decay at a certain ratio. There are five categories of biodegradability. In this brochure those products that are Readily Biodegradable are listed.

- RB: Readily Biodegradable by OECD criteria (≥60% in 10-day window)
- UB: Readily Biodegradable (≥60% in 28 days)
- MB: Moderately Biodegradable (>20-60% in 28 days)
- PB: Poorly Biodegradable (≤20% in 28 days)
- PE: Partially Eliminated by water

Anionic Surfactants		
Trade Name	Chemical Nature	Biodegradability Level
Sulfopon® 1216 G	Sodium Coco-sulfate	RB
Texapon® 842 UP	Sodium n-octyl sulfate	RB
Texapon® K 12 G	Sodium C12 fatty alcohol sulfate	RB
Texapon® K 12 P	Sodium C12 fatty alcohol sulfate	RB
Texapon® K 14 S SPEZ 70%	Sodium myreth sulfate	RB
Texapon® K 30 UP	Sodium Coco-sulfate	RB
Texapon® NSO 328 UP	Sodium lauryl ether sulfate (3 E0)	RB
Texapon® V 95 G	Sodium lauryl sulfate	RB
Texapon® Z 95 P	Sodium C12-18 fatty alcohol sulfate	RB
Biocides		
Trade Name	Chemical Nature	Biodegradability Level
Myacide® AS Plus	Bronopol	RB
Myacide® AS Technical	Bronopol	RB
Myacide® GA 50	Glutaraldehyde	RB
Myacide® GDA Technical	Glutaraldehyde	RB
Myacide® S 30	Bronopol	RB
Protectol® GA 50	Glutaraldehyde	RB
Protectol® PE NA	Phenoxyethanol	RB

	Chelating Agents	
Trade Name	Chemical Nature	Biodegradability Level
Trilon® A Liquid	Trisodium salt of NTA	RB
Trilon® CA Food Grade	Disodium calcium EDTA	UB
Trilon® M Granules SG T	Trisodium salt of MGDA	RB
Trilon® M Liquid T	Trisodium salt of MGDA	UB
	Non Ionic Surfactants	
Trade Name	Chemical Nature	Biodegradability Level
APG® 325 UP	Decyl/Undecyl Glucoside	RB
Dehydol® 100	C10-18 Fatty Alcohol (9 EO)	RB
Dehydol® 980	C10-16 Alcohol Alkoxylate	RB

## **Safer Choice**

The United States Environmental Protection Agency (EPA) has created a rigorous review and QA of third-party assessment of chemical ingredients. If an ingredient meets the requirements that are based on performance, packaging, pH, and VOCs, than it is listed on EPA's Safer Chemical Ingredients List.

All chemicals that pass this investigation are listed on cleangredients.org, a database whose formulations have been pre-approved by the EPA based on Safer Choice Standards.

	Acids
Trade Name	Chemical Nature
Luvipur® FM 99	Formic Acid

#### Disclaimer

This document, or any answers or information provided herein by BASF, does not constitute a legally binding obligation of BASF. While the descriptions, designs, data and information contained herein are presented in good faith and believed to be accurate, it is provided for your guidance only. Because many factors may affect processing or application/use we recommend that you make tests to determine the suitability of a product for your particular purpose prior to use.

It does not relieve our customers from the obligation to perform a full inspection of the products upon delivery or any other obligation.

No warranties of any kind, either express or implied, including warranties of merchantability or fitness for a particular purpose, are made regarding products described or designs, data or information set forth, or that the products, designs, data or information may be used without infringing the intellectual property rights of others. In no case shall the descriptions, information, data or designs provided be considered a part of our terms and conditions of sale.

## Safety

We know of no ill effects that could have resulted from using our products for the purpose for which they are intended and from processing them in accordance with current practice. According to the experience we have gained up to now and other information at our disposal, our products do not exert any harmful effects on health, provided that they are used properly, due attention is given to the precautions necessary for handling chemicals, and the information and advice given in our safety data sheet are observed.

## Labeling

Details about the classification and labeling of our products and further advice on safe handling are contained in the current safety data sheets.
